

Class 37: File Basics

Held: Thursday, 8 November 2007

Summary: We consider *files*, a technique for structuring information that permits the information to persist across invocations of Scheme.

- Reading: Files.

Notes:

- It's your final chance for in-class questions on the exam. I'll do my best to be available via email tonight.
- EC: Today's Thursday Extra on Scripting Video with Scheme (4:30, 3821).

Overview:

- Data persistence.
- Basic file operations.
