

## CS151.02 2007S Syllabus

This is an alternate abbreviated course syllabus. Like everything else in this course, it is likely to change.

Weeks: 1, 2, 3, 4, 5, 6, 7, break, 8, 9, 10, 11, 12, 13, 14.

|                                 | Date                              | Subject  | Work  | Reading                                      | Lab  |
|---------------------------------|-----------------------------------|--|---|--|--|
| <b>Week 01: Getting Started</b> |                                   |  |   |  |  |
| 01                              | Monday,<br>January 22,<br>2007    | <b>An Introduction to Algorithms</b><br>Introduction; What is CS? An Algorithm for Making Simple Sandwiches.                                 | <i>Assignments:</i><br>Do Homework 1 (due tomorrow).<br>Read Linux and the MathLAN (also due tomorrow). |  |  |
| 02                              | Tuesday,<br>January 23,<br>2007   | <b>An Introduction to CSC151</b><br>Lessons from PB and J. Common parts of an algorithm. About the course. Lab. Some administrative details. | <i>Due:</i> HW 1  | The Linux Environment in the MathLAN         | Getting Started in the MathLAN               |
| 03                              | Wednesday,<br>January 24,<br>2007 | <b>Working in DrScheme</b><br>Wrapping up the MathLAN lab. DrScheme lab.   |   | The DrScheme Program-Development Environment | The DrScheme Program-Development Environment |
| 04                              | Friday,<br>January 26,<br>2007    | <b>Beginning Scheme</b><br>Why use programming languages? Scheme basics. Scheme history. Lab.  | <i>Due:</i> HW 2  | Beginning Scheme                             | Beginning Scheme                             |
| <b>Week 02: Data Types</b>      |                                   |  |   |  |  |

|                                    |                                   |   |                  |   |                                  |
|------------------------------------|-----------------------------------|---|------------------|---|----------------------------------|
| 05                                 | Monday,<br>January 29,<br>2007    | <b>Symbols and Lists</b><br>Symbolic values.<br>Lists. Lab.   |                  | Symbols in Scheme<br>and Lists in Scheme      | Symbols and Lists                |
| 06                                 | Tuesday,<br>January 30,<br>2007   | <b>Numeric Values</b><br>Types. Review of<br>Reading: Numbers,<br>Kinds of Numbers,<br>and Numeric<br>Operations. Lab.<br>Reflection. | <i>Due:</i> HW 3 | Numeric Values                                | Numeric Values                   |
| 07                                 | Wednesday,<br>January 31,<br>2007 | <b>Characters and<br/>Strings</b><br>Additional lessons<br>from yesterday.<br>Short introduction to<br>strings. Lab.                  |                  | Characters in Scheme<br>and Strings in Scheme | Characters and Strings           |
| 08                                 | Friday,<br>February 2,<br>2007    | <b>Procedure<br/>Definitions</b><br>Why define your<br>own procedures?<br>How to define your<br>own procedures.<br>Lab.               | <i>Due:</i> HW 4 | Defining Your Own<br>Procedures               | Defining Your Own<br>Procedures  |
| <b>Week 03: Control Structures</b> |                                   |   |                  |   |                                  |
| 09                                 | Monday,<br>February 5,<br>2007    | <b>Boolean Values and<br/>Predicates</b><br>Preparation. Lab.   |                  | Boolean Values and<br>Predicates              | Boolean Values and<br>Predicates |
| 10                                 | Tuesday,<br>February 6,<br>2007   | <b>Conditionals</b><br>Preliminary Notes on<br>Conditionals. Lab.<br>Reflections.   | <i>Due:</i> HW 5 | Conditionals                                  | Conditionals                     |
| 11                                 | Wednesday,<br>February 7,<br>2007 | <b>Recursion</b><br>Repetition.<br>Recursion.<br>Recursion in<br>Scheme. Lab.   |                  | Recursion                                     | Recursion                        |

|                                      |                                    |   |   |  |                                      |
|--------------------------------------|------------------------------------|---|---|--|--------------------------------------|
| 12                                   | Friday,<br>February 9,<br>2007     | <b>Recursion,<br/>Revisited</b><br>Q&A. Lab. Optional<br>topics: Scheme's<br>Evaluation Strategy;<br>Another Example.   | <i>Due:</i> HW 6                                  | Recursion  | Recursion                            |
| <b>Week 04: Recursion, Revisited</b> |                                    |   |   |  |                                      |
| 13                                   | Monday,<br>February<br>12, 2007    | <b>Recursion with<br/>Lists</b><br>Q&A. Labs.   |   | Recursion  | Recursion with Lists                 |
| 14                                   | Tuesday,<br>February<br>13, 2007   | <b>Recursion with<br/>Natural Numbers<br/>(1)</b><br>Writing Recursive<br>Procedures. Short<br>Introduction to<br>Numeric Recursion.<br>Lab.                            |   | Numeric Recursion  | Numeric Recursion                    |
| 15                                   | Wednesday,<br>February<br>14, 2007 | <b>Recursion with<br/>Natural Numbers<br/>(2)</b><br>Q & A. Lab.<br>Reflection.   |   | Numeric Recursion<br>and Writing Recursive<br>Procedures | Numeric Recursion                    |
| 16                                   | Friday,<br>February<br>16, 2007    | <b>Local Bindings</b><br>Why name things.<br>Naming things with<br>let. Naming things<br>with let*. Naming<br>procedures. Lab.  | <i>Due:</i> HW 7<br><i>Assignments:</i><br>Exam 1 | Naming Values with<br>Local Bindings                     | Naming Values with<br>Local Bindings |
| <b>Week 05: Miscellaneous</b>        |                                    |   |   |  |                                      |
| 17                                   | Monday,<br>February<br>19, 2007    | <b>Documentation,<br/>Preconditions and<br/>Postconditions</b><br>The need for<br>documentation.<br>Verifying<br>preconditions. Husk<br>and Kernel<br>programming. Lab. |   | Preconditions and<br>Postconditions                      | Preconditions and<br>Postconditions  |

|  |                                    |   |                              |  |  |
|--|------------------------------------|---|------------------------------|--|--|
| 18   | Tuesday,<br>February<br>20, 2007   | <b>Unit Testing</b><br>An Overview of<br>Testing. Using Our<br>Test Environment.<br>Lab.  |                              | Unit Testing                                 | Unit Testing                                 |
| 19   | Wednesday,<br>February<br>21, 2007 | <b>Local Procedure<br/>Bindings</b><br>Why Have Local<br>Procedures. Creating<br>Local Procedures.<br>An Example:<br>Reverse. Lab.                  |                              | Local Procedure<br>Bindings and<br>Recursion | Local Procedure<br>Bindings and<br>Recursion |
| 20   | Friday,<br>February<br>23, 2007    | <b>Analyzing<br/>Procedures</b><br>Overview. Steps.<br>Lab.   | <i>Due:Exam 1</i>            | Analyzing Procedures                         | Analyzing Procedures                         |
| <b>Week 06: Files</b>                          |                                    |   |                              |  |  |
| 21   | Monday,<br>February<br>26, 2007    | <b>Discussion of Exam<br/>1</b><br>Notes on exam 1.   |                              |  |  |
| 22   | Tuesday,<br>February<br>27, 2007   | <b>Input and Ouptut</b><br>Interactive programs.<br>Output in Scheme.<br>Input in Scheme.   |                              | Output in Scheme and<br>Input in Scheme      | Input and Output                             |
| 23   | Wednesday,<br>February<br>28, 2007 | <b>Recursion with<br/>Files</b><br>Remaining I/O<br>Topic: Repetitive<br>Prompting. About<br>Files. Key File<br>Operations. File<br>Recursion. Lab. |                              | Files  | Files  |
| 24   | Friday,<br>March 2,<br>2007        | <b>Simulation</b><br>The Problem of<br>Simulation.<br>Scheme's random<br>procedure.<br>Simulating the roll of<br>dice. Lab.                         | <i>Due:HW 8<br/>Due:HW 9</i> | Simulation                                   | Simulation                                   |
| <b>Week 07: First Project: Generating Text</b> |                                    |   |                              |  |  |

|  |                                 |  |                              |                                     |                                     |
|--|---------------------------------|--|------------------------------|-------------------------------------|-------------------------------------|
| 25   | Monday,<br>March 5,<br>2007     | <b>Project: Text Generation (Part One)</b><br>The Project.<br>Strategies. Dividing the Work. Lab.        |                              | Project: Text Generation (Part One) | Project: Text Generation (Part One) |
| 26   | Tuesday,<br>March 6,<br>2007    | <b>Project: Text Generation (Part Two)</b><br>Improving Our Text Generation Strategy.<br>Questions. Lab. | <i>Due:</i> HW 10            | Project: Text Generation (Part Two) | Project: Text Generation (Part Two) |
| 27   | Wednesday,<br>March 7,<br>2007  | <b>Project: Text Generation (Part Three)</b>   |                              |                                     |                                     |
| 28   | Friday,<br>March 9,<br>2007     | <b>Project: Text Generation (Part Four)</b>  |                              |                                     |                                     |
| <b>Fall Break</b>                              |                                 |  |                              |                                     |                                     |
| <b>Week 08: Data Structures</b>                |                                 |  |                              |                                     |                                     |
| 29   | Monday,<br>March 12,<br>2007    | <b>Pairs and Pair Structures</b><br>Memory and Naming. Pairs and Cons cells. Why care? Lab.              |                              | Pairs and Pair Structures           | Pairs and Pair Structures           |
| 30   | Tuesday,<br>March 13,<br>2007   | <b>Deep Recursion</b><br>Lists, revisited.<br>Trees, introduced.<br>Deep recursion, considered. Lab.     |                              | Deep Recursion                      |                                     |
| 31   | Wednesday,<br>March 14,<br>2007 | <b>Deep Recursion Laboratory</b><br>Lab.   |                              | Deep Recursion                      | Deep Recursion                      |
| 32   | Friday,<br>March 16,<br>2007    | <b>Vectors</b><br>Problems with lists.<br>A solution: Vectors.<br>Lab.                                   | <i>Due:</i> Project Report 1 | Vectors                             | Vectors                             |
| <b>Week 09: Scripting Graphics in the GIMP</b> |                                 |  |                              |                                     |                                     |

|   |                                 |  |                   |                                       |  |
|---|---------------------------------|--|-------------------|---------------------------------------|--|
| 33                                      | Monday,<br>April 2,<br>2007     | <b>GIMP Basics</b><br>About the GIMP.<br>This week. Getting<br>started with the<br>GIMP. Lab.                                      |                   | The GNU Image<br>Manipulation Program | The GNU Image<br>Manipulation Program    |
| 34                                      | Tuesday,<br>April 3,<br>2007    | <b>Getting Started<br/>with Script-Fu</b><br>About Script-Fu.<br>Lab. Reflection.  |                   | Scripting the GIMP<br>with Script-Fu  | Generating GIMP<br>Images with Script-Fu |
| 35                                      | Wednesday,<br>April 4,<br>2007  | <b>Writing Script-Fu<br/>Procedures</b><br>Reflections on the<br>first Script-Fu Lab.<br>Writing procedures<br>for Script-Fu. Lab. |                   | Writing Script-Fu<br>Procedures       | Writing Script-Fu<br>Procedures          |
| 36                                      | Friday,<br>April 6,<br>2007     | <b>Randomized<br/>Images</b><br>Randomized<br>Drawing - Some<br>Theory. Randomized<br>Drawing - Some<br>Practice. Lab.             | <i>Due:Exam 2</i> | Randomized Drawing                    | Randomized Drawing                       |
| <b>Week 10: Higher Order Procedures</b> |                                 |  |                   |                                       |  |
| 37                                      | Monday,<br>April 9,<br>2007     | <b>Algorithmic Art</b><br>Color grids.<br>Example.<br>Anonymous<br>Procedures. Lab.  |                   | Algorithmic Art                       | Algorithmic Art                          |
| 38                                      | Tuesday,<br>April 10,<br>2007   | <b>Discussion of Exam<br/>2</b><br>General issues.<br>Problem 4. Problem<br>3. Problem 2.<br>Problem 1.                            | <i>Due:HW 11</i>  |                                       |  |
| 39                                      | Wednesday,<br>April 11,<br>2007 | <b>Manipulating<br/>Images with<br/>Script-Fu</b><br>Primary<br>image-manipulation<br>procedures. color<br>transformations. Lab.   |                   | Manipulating Images<br>with Script-Fu | Manipulating Images<br>with Script-Fu    |

|   |                                 |  |                   |                         |                        |
|---|---------------------------------|--|-------------------|-------------------------|------------------------|
| 40  | Friday,<br>April 13,<br>2007    | <b>Drawing with Script-Fu</b><br>Representing drawings.<br>Transforming drawings. Lab.   | <i>Due:</i> HW 12 | Drawing with Script-Fu  | Drawing with Script-Fu |
| <b>Week 11: Algorithms (1): Searching</b> |                                 |  |                   |                         |                        |
| 41  | Monday,<br>April 16,<br>2007    | <b>Higher-Order Procedures, Summarized</b><br>Background: Guiding Principles.<br>Background: Writing Similar Code.<br>Procedures as Parameters.<br>Anonymous Procedures.<br>Procedures as Return Values.<br>Encapsulating Control. Final Thoughts. |                   | Higher-Order Procedures |                        |
| 42  | Tuesday,<br>April 17,<br>2007   | <b>Association Lists and Searching</b><br>Databases and dictionaries. Lists as dictionaries. <code>assoc</code> , a procedure for searching lists.<br>Variants of Association Lists.<br>Lab.   | <i>Due:</i> HW 13 | Association Lists       | Association Lists      |
| 43  | Wednesday,<br>April 18,<br>2007 | <b>Binary Search</b><br>About common algorithms.<br>Searching. Binary search. Lab.   |                   | Searching Methods       | Binary Search          |

|   |                                 |  |                   |                            |                            |
|---|---------------------------------|--|-------------------|----------------------------|----------------------------|
| 44  | Friday,<br>April 20,<br>2007    | <b>Introduction to Sorting</b><br>The problem of sorting, revisited. Writing sorting algorithms. Examples: Insertion, Selection, etc. Formalizing the problem. | <i>Due:</i> HW 15 |                            |                            |
| <b>Week 12: Sorting</b>                               |                                 |  |                   |                            |                            |
| 45  | Monday,<br>April 23,<br>2007    | <b>Insertion Sort</b><br>Preparation. Lab. Reflection.   |                   | Sorting                    | Insertion Sort             |
| 46  | Tuesday,<br>April 24,<br>2007   | <b>Merge Sort</b><br>Key Ideas. Lab. Reflection.   | <i>Due:</i> HW 15 | Merge Sort                 | Merge Sort                 |
| 47  | Wednesday,<br>April 25,<br>2007 | <b>Quicksort</b><br>The key ideas of Quicksort. Lab.   |                   | Quicksort                  | Quicksort                  |
| 48  | Friday,<br>April 27,<br>2007    | <b>Variable-Arity Procedures</b><br>Definition of <i>arity</i> . Why have variable-arity procedures. How to write variable-arity procedures. Lab.              | <i>Due:</i> HW 16 | Variable-Arity Procedures  | Variable-Arity Procedures  |
| <b>Week 13: Object-Oriented Programming in Scheme</b> |                                 |  |                   |                            |                            |
| 49  | Monday,<br>April 30,<br>2007    | <b>Object Basics</b><br>Representing Compound Values. Introduction to Objects. Procedures as Objects. Adding State.  |                   | Modeling Objects in Scheme |                            |
| 50  | Tuesday,<br>May 1,<br>2007      | <b>Objects Lab</b><br>Lab.   |                   | Modeling Objects in Scheme | Modeling Objects in Scheme |

|                        |                              |   |                              |                 |                 |
|------------------------|------------------------------|---|------------------------------|-----------------|-----------------|
| 51                     | Wednesday,<br>May 2,<br>2007 | <b>Stacks</b><br>Abstract Data Types (ADTs). Stacks. Implementing Stacks in Scheme. Some Applications. Lab. |                              | Stacks          | Stacks          |
| 52                     | Friday, May 4, 2007          | <b>Metaprogramming</b>  | <i>Due:Exam 3</i>            | Metaprogramming | Metaprogramming |
| <b>Week 14: Wrapup</b> |                              |   |                              |                 |                 |
| 53                     | Monday,<br>May 7,<br>2007    | <b>Discussion of Exam 3</b><br>General Observations. Specific Problems.                                     |                              |                 |                 |
| 54                     | Tuesday,<br>May 8,<br>2007   | <b>What is Computer Science, Revisited?</b><br>What is CS?<br>Subfields of CS.<br>Related Disciplines.      |                              |                 |                 |
| 55                     | Wednesday,<br>May 9,<br>2007 | <b>Review for Final Quiz.</b> Grading. The Final. Course Topics.  | <i>Due:Project Report 2.</i> |                 |                 |
| 56                     | Friday, May 11, 2007         | <b>Wrapup</b><br>The subject matter of the course.<br>Evaluation forms.<br>Final comments.                  |                              |                 |                 |
