

Class 26: Other Forms of List Recursion

Held: Wednesday, 5 March 2008

Summary: We conclude our initial forays into list recursion by looking for some common patterns in the design of recursive procedures.

Related Pages:

- Due: Assignment 6: Color-Reducing Filters.

Notes:

- I continue to reserve time at the start of class reserved for anything you want to discuss.
- Distributed: Exam 2 (Note that the exam is not officially open for criticism until the start of class, so don't send me error messages before then. Even though the exam has not been formally distributed, academic honesty policies still apply.)
- On Thursday, John Stone speaks about using open documentation formats.

Overview:

- Questions and answers.
- Patterns of list recursion.
- Recursive predicates.
