Notes:

- Are there questions on HW3?
- A few of you have mentioned that you'd like to discuss HW2.
- Thursday at 4:30, CS Extra on a Web-Based Campus Map.
- I've removed all online marks for your readings.

Overview:

- About this week.
- Lab.

About This Week

- One issue I've experienced in past weeks is that many CS302 students seem to have only a vague understanding of higher-order programming.
- This year, I'm trying a different approach to re-ground you in these issues: We're going to use a variant of some labs developed in 151 for just that purpose.
- Approximate schedule:
 - Today: Getting you started with GIMP and Script-Fu.
 - Wednesday: Pixel-oriented operations (starts higher-order stuff)
 - Friday: Point-oriented operations (continues higher-order stuff)
 - Early next week: Reflect on learning

Lab

- Generating GIMP Images with Script-Fu
